

SVMS Hammond Foray, 29 Sept. 2018  
84 species!

Amanita citrina  
Amanita flavoconia  
Amanita fulva  
Amanita rubescens  
Amanita virosa  
Boletus bicolor var. borealis  
Boletus edulis  
Boletus parasiticus  
Boletus variipes  
Calvatia cyathiformis  
Cantharellus cibarius  
Cantharellus minor  
Chlorociboria aeruginascens  
Clavulina cinerea  
Clavulinopsis fusiformis  
Clitocybe clavipes  
Cortinarius camphoratus  
Cortinarius caperatus  
Cortinarius iodes  
Daedaleopsis confragosa  
Enteloma abortivum  
Ganoderma applanatum  
Ganoderma tsugae  
Grifola frondosa  
Gyroporus castaneus  
Hericium coralloides  
Humaria hemisphaerica  
Hydnum umbilicatum  
Hygrocybe minutula  
Hygrophorus coccineus  
Hygrophorus piceae  
Hygrophorus reidii  
Hygrophorus russula  
Hymenopellis rubrobrunnescens  
Hymenopellis furfuracea  
Hypholoma sublateritium  
Hypomyces chrysospermus  
Hypomyces hyalinus  
Hypomyces lactifluorum  
Laccaria ochropurpurea  
Lactarius aquifluus  
Lactarius camphoratus  
Lactarius chrysorheus  
Lactarius lignyotus  
Lactarius oculatus  
Lentinellus ursinus  
Leotia lubrica  
Leotia viscosa  
Lepiota acutesquamosa  
Leptonia odorifera  
Lycoperdon coloratum  
Macrolepiota procera  
Mutinus caninus

Mycena galericulata  
Mycena epipterygia var. epipterygia  
Neofavolus alveolaris  
Nolanea conica  
Omphalotus illudens  
Panellus stipticus  
Paxillus atromentosus  
Peziza badia  
Piptoporus betulina  
Pluteus cervinus  
Polyporus badius  
Pseudohydnum gelatinosum  
Russula brevipes var. acrior  
Russula brunneola  
Russula cyanoxantha  
Russula fragilis  
Russula fragrantissima  
Russula queletii  
Sarcodon imbricatum  
Scleroderma citrina  
Spongipellis pachyodon  
Suillus americanus  
Suillus granulatus  
Suillus pictus  
Trametes versicolor  
Trichaptum biforme  
Tricholoma magnivelare  
Tricholoma sulphureum  
Tricholomopsis decora  
Tylopilus felleus  
Tylopilus rubrobrunneus  
Xanthoconium separans
